## 3 Runners—3 Winners!

Three winners from our last three runners was an impressive tally however unfortunately Dashym spoilt the party when he missed the start in the Inglis Premier at Caulfield on March 4 virtually taking no part in the race, and only beating two runners home. It was a disappointing day for the vast majority of the syndicate who made the trek to Caulfield with some members coming from interstate however, a good number of the syndicate including myself and Lauren finished up drowning our sorrows in the Inglis private function room trying to back a winner to make up for the day. Dashym, although failing is a nice horse who will be a much better horse with a break and has a future and we have every reason to be optimistic about his future abilities.

though he definitely has the scope to be a likely metropolitan starter in the upcoming month or so when he returns. Ideally a class 6/one metropolitan restricted around 1500—1600 metres would be ideal.

Last Waltz also cruised to victory at Geelong on March 2 leading all the way to bring up her third career victory and is now rewarding the syndicate who have been very patient with this mare. While it is hard to give any strong lead on the mare due to her unreliable barrier manners Mick has done a great job with her and she presented exceptionally well in the mounting yard. An easy lead was helpful and she was left unchallenged during the race and jockey Matt Gatt was able to dictate terms and she was very strong on the line. We will most likely look for similar races for her looking to possibly step her up in distance but she remains extremely consistent for the syndicate having now had 11 starts for 3 wins, 2 seconds and a third for prize money of \$33,575.00, and has finished in the first 5 in 9 of her 11 starts to date.

Bella's Bro may be starting to live up to his early potential if his recent win at Ararat is anything to go on. The now 4YO led all the way to win in very easy fashion and followed on from his just as easy all the way win at Traralgon on Derby Day. This horse seems to be getting better with racing and although a recent injury has put a temporary hold to any future racing for the moment, it appears as

## Syndications 2006

Our latest two syndications of 2006 are now in the throes of being advertised to the general public and all members are advised to please contact Lauren and myself at their earliest convenience should either the Perugino filly or Bel Esprit filly appeal. There are some members who are also interested in taking half a share in both the above fillies and the Choisir colt so if there is anyone who could help these people by taking the other half to make up a full share it would be most appreciated.

Please give me a call on this issue and I will make the necessary arrangements. I have attached a pedigree page of each filly and the colt for everyone's convenience. All syndicates are as usual 20 shares with the Perugino filly priced at \$2,350.00 per share, the Bel Esprit filly is priced at \$4,200.00 and the Choisir colt \$5,090.00 per share. Monthly fees are \$132.00 per month for each syndicate which covers all costs.
